

## MEASURING FORCE INDICATOR (MFI) FOR SETTING OF FORCE AND ADJUSTMENT OF SPRINGS

The measuring force indicator is suitable for calibration of thickness gauges for elastic materials as condoms and gloves. The indicator is provided with pressure table for spindle diameters from 3 to 7 mm.

With maximum pointer to hold the measured value.

Calibration Certificate Included, traceable to international normal.

### Specifications

Measuring range:	10 - 100 gram
Reading:	2 gram
Dimensions:	90x50x20 mm
Accuracy:	±4 gram

**Art. No.: 603**
